OVERVIEW > AMENITIES > INTERESTS >

Real Cowboys may be a tad rare, but that doesn't mean you can't still experience the finer points of the craft. The Ranch at Rock Creek keeps the wild spirit of Montana, while adding some welcome polish.

Big Sky Country indeed. One may wonder what makes one patch of sky larger than the next, but while wading waste-deep into the creek in search of trout, the blue up above does in fact feel enormous — and occasionally dumbfounding.

Montana offers a varied terrain, with outdoor sporting opportunities as rich as the land itself. It also offers The Ranch at Rock Creek, a rugged-yet-refined lodge in the heart of the valley. This timber and granite throwback is beyond charming: Tree branches have been repurposed as bed frames and chairs, leather is stretched and softened into cushion covers, and soft, natural wool and cotton bedspreads await adventure-weary ranchers come days' end.

In the main Granite Lodge, nine rooms are available. For a more intimate feel, opt for one of three cabins, a tented cabin, or one of two sprawling log homes.

Fine meals made with local fare are served in the Granite Lodge, fuelling guests for days spent fly-fishing, horseback riding, hiking, clay shooting, mountain biking, and skiing in wintertime. When you feel need to return to your city-slicker roots, head inside for some bowling. Yes, real cowboys roll once in a while, too.
